Assignment TV

By TERRENCE O'FLAHERTY

HOLLYWOOD—Trends are very handy things. They keep television producers — and also television columnists — from having to worry about the small things. It's like combining all your debts into one great big loan from a finance agency. It looks simpler. It's the overall picture, fellows.

The latest trend is the marriage of TV and the movies. Such an event here in a city where marriages don't last long is not earth-shattering. It's a wonder it didn't happen sooner. Now television can borrow — or steal — its trends from the movies and vice versa. Mostly vice, I would guess.

"Doomsday Flight"—a hand-wringer produced for about \$1 million by NBC-Universal, was the most ironic success of the year. It managed to unseat NBC's own "Bonanza" as the most viewed show of its two-week period. I doubt if NBC wanted to go that far.

NOT ALL inter-medium marriages have been successful. On Christmas night ABC revealed the first result of its liaison with M-G-M — something called "The Dangerous Days of Kiowa Jones." It was so bad that ABC sneaked it on the air without any publicity. Robert Horton and Diane Baker co-starred. There were six deaths—five humans and a horse. Unfortunately neither of its co-stars or the script writer was included.

A most welcome trend is toward better commercials, less frequently displayed. A pioneer in this has been Hallmark Hall of Fame which for years has placed its plugs between acts only. No important scenes are disturbed. It makes the show look better and the commercials too.

Xerox has followed this policy with great success for several seasons. "The Glass Menagerie" was interrupted only four times at half-hour intervals. The Bell Telephone Hour went them one better. They have no commercials during the show — only at the end—and they are excellent.

IT WAS MY guess that the trend would be away from kiddie-comics like "Batman" due to the failure of "Green Hornet." I was wrong. The year 1967 will see two new series on NBC and ABC — "Mr. Nice" and "Mr. Wonderful" — both cut-outs from old comic strips like Superman.

In November last CBS decided comics were out and its president claimed his network was betting \$9 million on "realism" like "Family Affair" and "The Andy Griffith Show" for next season. Now CBS has a new president, so the crystal ball has changed.

Health insurance benefits paid out by all private insurers totaled \$9.6 billion in 1965, an increase of 10.6 percent over 1964.

Garden Checklist

1. When planting annuals for winter and early spring color, give them a warm, sunny bed.
2. Now is the time to improve garden soil by working in one of the chemical or organic soil conditioners.
3. Dig gladioli that have died back and store the corms in a dry place for replanting in winter or spring.
4. You can make compost from falling leaves and other plant material. Your nurseryman can give you instructions.
5. New lawns should be mowed only when top growth has reached a height of about three inches — usually about a month after planting.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by a doctor's observations. Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place. And most amazing of all — this improvement was maintained in cases where a doctor's observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing. All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®) — the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation H®. Ask for individually sealed convenient Preparation H Suppositories or Preparation H Ointment with special applicator. Preparation H is sold at all drug counters.
